

April 28, 2022

The Town has begun an effort to adopt an ordinance which would provide for a temporary moratorium on certain commercial development in the commercially zoned areas.

The moratorium is expected to be introduced at the next regular meeting of the Board of Alderman on May 17, 2022. There will be opportunities for public input at the meetings of both the Planning and Zoning Commission on May 26, 2022, and the Town Council on June 21, 2022.

Since the town is looking at extensive revisions to its zoning ordinances, Mayor Curtis and the administration have requested that we defer the proposed amendments to *Town Code Sec. 9-229 – Residential-Commercial Overlay District*. This amendment addresses the issue of expanding the hours of operation in the Residential-Commercial Overlay District.
